Re: State of California Proposition 65 Notification

www.P65Warnings.ca.gov

Effective August 31, 2018, the State of California requires customer notification for products manufactured after August 31, 2018 which contain substances listed in the Proposition 65 substance list, in amounts exceeding Significant Risk/Dosage Levels, which are known in the State of California to cause cancer, or birth defects, or reproductive harm. This requirement applies to consumer products sold in California, or products which may be exposed to people in the State of California.

Pneumatic, Electrical, Mechanical, Electronic components, or electronic products in general may include some level of substances identified by Proposition 65. Please find the list of possible chemicals at this link, <https://oehha.ca.gov/proposition-65/chemicals>

Please review Manufacturer Specifications and Material Data sheets for individual products to obtain specific chemical content and risk assessment information prior to qualification, selection, or purchase.

Exercise caution when handling subject products to prevent inhalation, absorption, or ingestion.

Clayton Controls, Incorporated is providing this warning out of an abundance of caution to fully comply with the Proposition 65 law and as an information service to our customers.
