

## Cognex Training – Wednesday, July 20, 2011

### If you are responsible for:

- Production
- Quality
- Automation
- Maintenance
- Manufacturing or Process Engineering

You will want to **attend this *FREE* Workshop** where you will get valuable information on the latest in Machine Vision and ID Reader Technologies.

Cognex Vision and ID Systems are unmatched in their ability to ***inspect, identify*** and ***guide*** parts. We make it easy for you to get the immediate benefits that these systems can bring to your manufacturing operations.

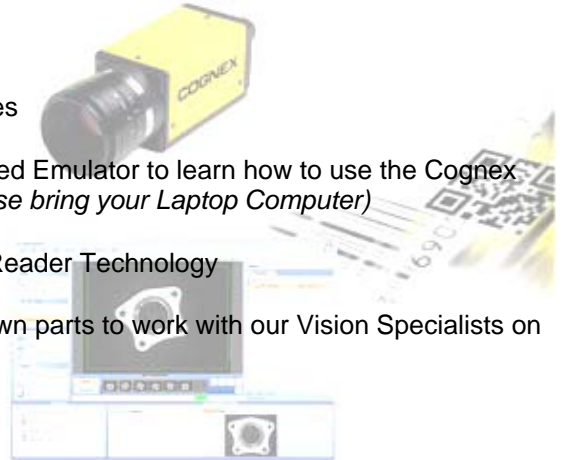

### Workshop Overview:

**Smart Camera Technology:** Model Options and Capabilities

**Software Capabilities:** Attendees will be using the integrated Emulator to learn how to use the Cognex In-Sight Explorer with EasyBuilder software interface. *(Please bring your Laptop Computer)*

**ID Product Technology:** Review of DataMan 1D and 2D Reader Technology

**Hands-On Lab:** Attendees are encouraged to bring their own parts to work with our Vision Specialists on setting up Vision Inspections or ID Reading.

### Where:

Clayton Controls  
2925 College Ave.  
Costa Mesa, CA 92626

### When:

Wednesday, July 20, 2011  
8:30AM – 2:30PM *(Lunch is included)*
